

## **Announcement on Upcoming Conferences from the Denver Society of Creation!**

Did you know that today's youth are leaving the churches in America at the rate of about sixty per cent? According to an America's Research Group Study, two of the biggest reasons given by millennials for leaving the church are "the Genesis account of creation" and "the age of the earth."

The Denver Society of Creation is sponsoring two conferences this spring in an attempt to address these issues. On May 02-04 at Ascension Lutheran Church in Littleton, a conference on "God's Word is our Great Heritage: A Conference on Creation and Education in the LCMS" will be held. It will open a discussion on the need for education on Biblical creation, its impact on the gospel and the teaching needed in our schools to combat evolution:

- On **03 May 2019**, Dr. Jason Lisle will present a workshop on pre-suppositional apologetics, "Defending God's Word, God's Way!" This workshop will teach you how to defend your faith against the teaching of evolution using God's Word as a starting point!
- We'll follow that on **May 03-04** with a discussion on creation and education in the LCMS. Speakers include Mr. Mike Riddle who will be speaking on "Equipping Youth for the Battlefield" and "Contending for the Faith," Dr. Dean Wenthe, President of the Concordia University System, President David Maier of the Michigan District, President Terry Forke of the Montana District, President John Wille of the South Wisconsin District and member of the Board of Regents of the St. Louis Seminary, Dr. David Adams from the St. Louis Seminary, Dr. Joel Heck, Professor of Theology at Concordia University, Austin, Rev. Joshua Scheer, Editor-in-Chief of Brothers of John the Steadfast and Dr. Barbara Helmkamp, who is on the faculty of Veritas Scholars Academy, and will speak on textbook issues and needs.

Scholarship opportunities are still available for teachers who apply!

**Register NOW! The Price Increases 28 April!**

Then on 02 June 2019, we'll sponsor a conference on "the Age of the Earth" at Peace Lutheran Church in Arvada. Did you know there is significant scientific evidence to support and confirm the Biblical age for the earth? We'll have four nationally known Ph.D. scientists from four different fields and the four largest creation research organizations discussing the scientific evidence that our earth is young! Cost for this half-day conference is only \$15.00, a value you will not find anywhere else!

See our website, [www.denversocietyofcreation.org](http://www.denversocietyofcreation.org) to for more information and to register!
