

# DR. BARBARA HELMKAMP

**“The Heavens Declare: Starlight and the Age of the Cosmos” or “*Where Will You Hang Your Hat?*”**

How does the apparent age of the universe (whatever you think this might be) relate to the Biblical account of creation? Does the so-called “starlight travel problem” (the BIG-ness of the universe) stand in the way of your accepting the Biblical account of creation at face value? Is the “Big Bang” hypothesis (pick any of its many variant forms) viable, or is it bankrupt, with more BAND-AIDS than healthy skin?

Dr. Barbara Helmkamp (Ph.D. in Physics, LSU, one-time Petrophysical Engineer for the Shell companies, BS Eng physics CSM) will address these questions in an introductory-level talk about cosmology and creation.
