DR. JASON LISLE

Biblical Science Institute

“Cosmology: Evolutionary Model and Problems”

This talk will focus on recent scientific findings that question the current standard theory of the cosmological origin of the universe, The Big Bang. In addition, Dr. Lisle will discuss the answers that creation scientists have for scientific findings like the cosmic background radiation and speed of light travel / time questions raised by evolutionary cosmologists.

About Dr. Lisle:

Dr. Jason Lisle is a Christian astrophysicist who writes and speaks on various topics relating to science and the defense of the Christian faith. He graduated *summa cum laude* from Ohio Wesleyan University where he double-majored in physics and astronomy and minored in mathematics. He then earned a master's degree and a Ph.D. in astrophysics at the University of Colorado in Boulder. Dr. Lisle specialized in solar astrophysics and has made a number of scientific discoveries regarding the solar photosphere, including the detection of giant cell boundaries using the SOHO spacecraft. He also does theoretical research and has contributed to the field of general relativity.

Since completion of his research at the University of Colorado, Dr. Lisle began working in full-time apologetics ministry, specializing in the defense of Genesis. He has written a number of articles and books on the topic. His most well-known book, [The Ultimate Proof of Creation](#), demonstrates that biblical creation is the only logical possibility for origins. Dr. Lisle wrote and directed the popular planetarium shows at the Creation Museum, including [“The Created Cosmos.”](#)

**Dr. Lisle is a very
sought after
national speaker !**

**Learn about our
created universe!**

**Join Dr. Lisle as
he:**

**Discusses the Issues
with the Big Bang
Theory!**

**Gives us a new
appreciation of God's
magnificent universe!**

**Dr. Lisle holds a PH.D in
Astrophysics and is a
Pre-suppositional
Apologist!**
