Patterns of Evidence: Exodus

Part II

By Thinking Man Films

You may be asking: “*What does the Exodus have to do with creation?*” One of the major arguments used for an “old earth” is that the Egyptian and Sumerian timelines go back much further than the Bible’s timeline. But are the Egyptian and Sumerian timelines correct? This movie is instrumental in bringing to light some of the discrepancies in the Egyptian timeline when compared to the Bible.

The credibility of the Bible is under attack. Many experts say there is no archaeological evidence for events like the Exodus. They claim these stories are just myths.

But that is about to change. Twelve years in the making, the critically acclaimed film “Patterns of Evidence: The Exodus” presents convincing new evidence that clearly matches the Biblical account!

Investigative filmmaker Timothy Mahoney journeyed to Egypt, Israel and throughout the world in search of answers to one very important question: Did the Exodus, as written in the Bible, really happen? What he finds is astounding! A pattern of evidence matching the six major events recorded in the Bible
