MOUNT ZION LUTHERAN CHURCH

DR. RANDY GULIUZZA

Institute for Creation Research

“Darwin’s Sacred Imposter: Exposing How “Natural Selection” Steals Credit for God’s Designs”

This talk presents an important and liberating way of looking at organisms and their environment. Programmed filling—a God-ordained, organism-centered, purpose-driven mechanism—is a biblically consistent and scientifically superior paradigm that explains exactly what happens at the organism-environment interface. By recognizing the explanatory power of programmed filling, believers will actually have a communicable and scientifically accurate pushback to natural selection that is easy to understand.

About Dr. Randy Guliuzza:

Dr. Randy Guliuzza is a captivating speaker who presents well-documented and often humorous scientific and biblical talks to audiences of all ages.
