Mr. Rich Cloud
Pikes Peak Creation Fellowship

“Dinosaurs on the Ark - Absolutely!”

This overview will focus on the fact that dinosaurs and mankind lived during the same timeline, from creation through the flood and until more recent times. We will also discuss multiple factors affirming this factual truth – the creation of unique animal kinds, design & function of the ark, how dinosaurs could easily fit on the ark, the biblical origin & timeline of fossils plus key scientific evidence supporting this view of dinosaurs from God’s Word.

About Mr. Cloud:

Rich Cloud is a retired research scientist who worked for 29 years at Nalco Co. / Ecolab while managing a microscopy & materials laboratory. His work involved utilizing various microscopic techniques to analyze solids formation and various material types (metals, non-metals & composites), while being the primary analyst for non-metals applications (failures & evaluations). He also worked at two other engineering centers to help develop & evaluate multiple material applications. Rich is a co-founder & director of the Pikes Peak Creation Fellowship in Colorado Springs.

**Mr. Rich Cloud is
the Director of the
Pikes Peak
Creation
Fellowship**

**He is a retired
research scientist
with over 29 years’
experience!**

**Could humans and
dinosaurs have
lived at the same
time?**

**Were Dinosaurs
really on the ark –
come find out!**
